

Team A
Christopher Creber
Jett Moy

Lab1-1 Write Up

Initial Decisions:

Programming Language: Java
Environment: IDE - Atom, Sharing - Git/GitKraken

Internal Architecture:

Created Student class to organize students/ make it easier to parse through later.
Used and arrayList of Students to store them.
While loop/ switch case to take user input.

Task Log:

Christopher: Creation of class/ parsing/ initial loop of user input, R4, R5, R7, R9, R10 (4 hours)

Jett: Testing, R3, R6, R8, R11, R12, E1 (4 hours)

Testing:

When: Last night/ in lab
Who: Jett
How Long: 1 hour
Number of Bugs: 0 (we planned ahead)
How Long to Fix: No time

Final Notes: This was a fun lab
